AESTHETIC

Elizabeth, our Medical Aesthetic Practitioner is expert in advanced injectable treatments. Her aesthetic artistry is designed to enhance your natural beauty while maintaining a refined, natural appearance.

MEDICAL AESTHETIC TREATMENTS

SIREEN HOUSE AESTHETIC TREATMENTS

Before any treatment is booked, you will be invited to attend an initial consultation with Elizabeth. This provides an opportunity to discuss your concerns, expectations and desired results, ensuring that a personalised treatment plan can be created to meet your individual needs and goals.

All products used at Sireen House are premium brands.

Anti-wrinkle injections (Botox)

From £250

Anti-wrinkle treatments are the most popular cosmetic medical treatment for facial lines and wrinkles in the UK and can be used successfully in combination with other rejuvenation treatments. The upper third of the face is where the best treatment results are obtained. Botox injections are not permanent. It is usually good to have treatments every 3-4 months to maintain the effect.

Dermal Fillers

From £285

Dermal fillers (also known as facial fillers) use a natural gel to smooth out wrinkles, folds or scars to give your face a younger, refreshed more plumped appearance. Dermal filler is a naturally occurring hyaluronic acid gel that is injected into the face to smooth wrinkles and folds. It is used to plump out scars and dents in the face and to define and enhance lips, reshape the jaw, or define and plump out cheeks and treat the tear trough area.

MEDICAL AESTHETIC TREATMENTS

Hand rejuvenation

From £460

Radiesse® is a dermal filler made from synthetic calcium hydroxylapatite (CaHA). Once injected, the gel matrix changes the volume of the dermis instantly. Additionally Radiesse continues to work over time. The CaHA stimulates production of the body's own collagen, which prolongs the volume replacement over an extended period of time.

Volumising & Skin rejuvenation

From £490

As the natural ageing process takes its toll on us, our skin loses it's full, firm, youthful appearance and becomes thinner and starts to wrinkle.

Sculptra® (often called the liquid face lift) is a non-invasive injectable facial enhancement therapy to smooth out wrinkles, restore facial volume and contour the face. Sculptra works by stimulating the build-up of your body's own collagen to get rid of lines and wrinkles and restore a more youthful appearance but with gradual, natural looking results that last up to 2 years.

Threadvein treatment

From £185

ThermaVein actively reduces the redness and prominence of thread veins including vascular blemishes, rosacea spider veins, and spider naevus from the face, neck and hands.

Skin Booster

From £280

Profilo is an injectable moisturising treatment containing a high concentration of Hyaluronic acid. When Profilo is injected into the skin it stimulates the skin cell receptors to counteract skin laxity and improve and restore firmness of the skin.

Enhance your natural beauty with our extensive range of treatments, delivered with expertise, care and attention to every detail by our professional Beauty team.
